Brittney Cavazos

California - Georgia | brittney.cavazos@gmail.com | U.S. Citizenship

Objective

Software developer with a strong foundation in visual design principles and a growth mindset. Brings an ability to blend creative design expertise with technical development skills. Seeking a role in front-end development or design.

Education & Certifications

Western Governors University | UT   *January 2024 – Present*
  Bachelor of Science in Software Engineering   *Expected Graduation, January 2026*

Amazon Web Services (AWS)   **May** *2024*
  Certified Cloud Practitioner

Fresno City College | Fresno, CA   *2014 – 2017*
  Certificate - Graphic Communications

Skills

Programming: React, React Native, TypeScript, Python, HTML, CSS,

Software: GitHub, Visual Studio Code, Git, Postman, Swagger, DBeaver, Adobe Photoshop, Adobe Illustrator, Adobe InDesign, Figma, Sketch, Tailwind, Bootstrap, Styled Components

Experience

Bitwise Industries | Fresno, CA   *May 2022 – June 2023*
Software Engineer

- Developed and implemented key features with React Native with Typescript, Expo, Redux, and Styled Components, enhancing app performance and user experience.
- Collaborated with senior developers in a SCRUM environment to update applications, create new features, and resolve bugs.
- Contributed effectively to a cross-functional team and occasionally led stand-up meetings.

AlphaWorks Technologies | Fresno, CA   *February 2021 – May 2022*
React Apprentice

- Gained expertise by learning how to leverage the power of ReactJS.
- Adapted to new technologies quickly and delivered results in a professional setting, contributing to project success.
- Co-taught a 6-week web-development course, assisting and motivating over 20 students to grasp the basics of HTML and CSS.

3INK Productions / Smashing Factory | Fresno, CA   *January 2018 – April 2020*
Production Artist

- Utilized Adobe Illustrator to create precise color separations, design proofs, and artwork used by both local and nationwide companies.
- Played a key role in the quality-control process by approving test prints, and meticulously checking registration and color matching against Pantone swatches to ensure accurate reproduction of designs.
- Maintained effective communication with customers, actively engaging in discussions to ensure clarity and understanding of design requirements, resulting in successful execution and customer satisfaction.

Projects

Love Unmasked
Software Engineering @ Bitwise Industries

A team-based project built with React Native, Expo, Typescript, and NodeJS. A mobile dating app targeted towards individuals who work in healthcare.

- Integrated data from the back end with Redux Toolkit, ensuring efficient state management and improved app performance.
- Executed tickets with the use of libraries, APIs, and React Native.
- Worked in a cross-functional team to build a complex matchmaking app.
